## ELDER MOSE HITE.

His Hair Byedth Escapes from Secu and Unseen Foes.

[Troy Kansas Chief, Jan. 18, 1883.]

Most of our old citizens well remember Mose Kite (whe lived in Petersburg Bottom), the hero of our State's early political history, who was of stalwart build and powerful physique; who in 1858 led a colony of our people to Pike's Peak; who fought the Indians on the plains and was shot through the body; who on his return here after the rebellion was converted and baptized by Elder Henshall, of the Christian church at Petersburg Bottom, and be-come a revival preacher of celebrity all through this section. They will also recall the fact that, attacked with consumption and reduced to a skeleton, he was obliged to remove to the Rockies in the hope of saving his life. None thought he would succeed. Last fall, however, the editor of this paper met him at the head of the Republican river, bigger and more robust than ever. "Why, I thought you had died of consumption long, long ago, Elder?'

"Me? I never had consumption, man! though people thought that was what ailed me, and I thought so myself. But the doctors had sent me on a wildgoose chase after a dozen other diseases, just as fatal, and this was the wildest

The good Elder then recounted to us, in a charming vein, his many adven-tures in the rough and ready life he had led, "but," he said, "remarkable as you may think my warlike life has been, I have a much more interesting story to teil you."

You know what a rough, noisy felmy fist. I have fought ruffians, border outlaws and Indians; but I was

DOGGED FOR YEARS

By a more dangerous unseen enemy an Indian in a fight on the plains, but physician, said my liver was out of or-der, caused by the malaria of the botlowed, and the physician said this was caused by my indigestion and diseased liver which would probably terminate fatally. Sometimes had a ravenous appetite, at others none at ali. I was feverish then chilly. My food seemed to urinate, which was done with difficulty and great pain. The specialist said I had a touch of the gravel, caused by use of the alkaline water of the plains. I then began to suffer severe pains in the loins and the small of the back, acabandon

TRAVELLING AND PREACHING. Because I could no longer ride on horseback, or trust myself out alone. I began to be seriously alarmed, and sought the advice of the most noted physician within reach. He said that my frequent horseback riding had jolted and jarred me until the old Indian wound which had injured my kidneys, had become inflamed. He treated me with medicines and electricity also, but gave me no permanent benefit. My painful symptoms all returned. I began to cough, got very thin and my legs were disagreeably numb. I began to despair. At each attempt to cure, my ailments became worse, with new symptoms. I next consulted a celebrated physician from the East, who, after thumping and examining me, stated that I was in an advanced stage of consumption and threatened with diabetes and paralysis He thought I might possibly prolong Senator-elect Sabin laughs at the my life for a year or two, by seeking a suggestion made in Washington, that higher and drier climate. This was my condition when the people in your part of the country last saw me.

Then I started for the Rockies but liked this country, and settled here.
At first the change helped me, but about three years ago the benefit ceased.
Then I failed so rapidly that I could be can.

Out of bed only part of each day. All
my old symptoms returned. At this
crisis, a party of Eastern gentlemen

ON A BUFFALO HUNT, vest—who lives in Virginia—to eat a a preparation which might, he said, turkey a day for that period. that was the best that could be done. Around the bottle was a newspaper, Now a newspaper was a rarity in our home, and I sat in my chair looking it over when my eye providentially fell upon an article relating a most wonder-ful cure of Bright's disease—the very malady that was killing me—by the use of Warner's Safe Kidney and Liver Cure, (of Rochester, N.Y.) Convinced that further delay would be fatal, and everything else failing, the next morning I dispatched one of my boys to the nearest railroad station, many miles dis-tant, to obtain a bottle of the Safe Cure. The druggist said the demand for the Cure was so great he could not keep it in stock, and he had to send to Kansas City for more. It was more than a week before it arrived, and I was daily pany with Blaine and his friends, but was careful not to go near the White House.

Work before it arrived, and I was daily getting weaker. But it came at last, and I at once began to take it. When I told Dr. Wakefield what I was taking, he gave me a look, half of scorn, half of pity, as much as to say

POOR FELLOW! He is putting his trust in a humbug.' Nevertheless I persevered, and for the past year and a half I have been as rugged as I ever was in my life. After escaping the attacks of Indians and half a dozen doctors, I was lying at the mercy of a still more dreadful foe that was about giving me the finishing blow, when that great romedy stepped in, slew my adversary, and placed me firmly on my feet once more. I have com-menced prevching again; for I look upon the circumstances and manner of my cure as a direct interposition of Providence, and to Providence are my services due. That is my story. I think t is as good as a romance-and much

better, for it is true."
Such is the substance, and very nearly the language of Elder Kite's narrative. Those who read it and are suffer-ing, may benefit by his experience if they will follow his example.

Sick and bilious headache, and all derangements of stomach and bowels, cured by Dr. Pierce's "Pellets"-or anti-bilious granules. 25 cents a vial. No cheap boxes to allow waste of virtues. By druggists.

The almond-eyed denizens of Chinatown are already preparing for the fowl feast which marks this festive period, and it will be well for owners of chickens, ducks and the like, to keep a shotgun handy if they wish to retain such property.

## Lake-Thompson.

In the District Court for the past two days, the case of M. C. Lake vs. Wm Thompson has been on trial. The plaintiff sues to recover \$1,000. The case grows out of the fight to bring the insane of Nevada to this State. Lake wanted the State to purchase the Bowers Mansion. Thompson was his right pu at the time, and collected John Rosser for Lake, which as used in lobbying at the sersion of 1881. The scheme did not win, and when the main fight was lost, Thompson telegraphed Beck, "Powning f." He probably meant that Powning had failed. The \$1,000, it seems, was used primarily to nelp the Bowers Mansion scheme, but really operated to the detriment of all other propositions bearing on the question. The jury brought in a verdict for Thompson.

In the Legislative Joint Convention. on Monday, when Frank Bell was elected Warden of the State Prison by a vote of 37 to 16 for Wm. Garrard and 3 for O. K. Stampley, Senator W. W. Hobart, rising to nominate Mr. Bell, said:

MR. PRESIDENT:-It has been made my pleasant duty, as the representative and mouth-piece of the Republican majority of this convention, to place in nomination for the position of Warden of the State Prison the name of Frank Bell, of Washoe county. In honesty and capability he comes squarely up to the true Jeffersonian standard. While it is true that he has never, up to this time, filled any public official position. his executive ability and entire trustworthiness have been fully tested and proven by his successful management, both financial and otherwise, of the in-The new Warden of the State Prison powerful corporations doing business in the brush and smoke, and frozen pedesyears in Nevada the name of Frank tan will doubtless be imitated by all ability and strict integrity. Under his control no scandals of any kind concerning the Prison, or its management, have been floating to Mr. Garrard's administration. In his retirement the State loses the services of one of the best, if not the very best, officers that it has yet called to administer its Prison affairs. Mr. President, I am one of those who believe in giving honor where honor is justly due, and in giving this merited meed of praise to the retiring Warden. I am happy to say that I am but voicing the opinion of the majority party on this floor. As the country is as yet only in the incipient stages of civil sernce reform, and Mr. Garrard has been obliged to yield that sound old Jacksonian Democratic doctrine, that "to the victors belong the spoils," the State of has secured for his successor such a manas Frank Bell.

## The Cargo of Carp.

The long-expected car of carp dispatched from Washington on the 26th ultimo has arrived in San Francisco. The car is known as the United States Fish Commission Palace Car No. 1, and contained at the time of leaving Washington about 19,000 fish. Besides the carp there were a number of Japanese gold fish. Consignments of the carp were distributed on the way out, and many of the fish will be sent soon to Oregon, Nevada, and some of the Territories. The car is in charge of G. H. H. Moore of the United States Fish Commission; James Canswell of Scotland, a fish expert, who, on his return to Washington, will go as specialist in charge of shad-hatching to the London Fish Exhibition; F. . A CONFLICT.

Trouble Between the Assembly and the 7th District Court.

Sergeant-at-Arms Stoddard came down from Carson last night to serve notice upon Judge Boardman this morning that the Assembly refused to allow Hon. Walter Marsden to appear in the 7th Judicial District Court to-day, and serve as a witness in the case of the State of Nevada vs "Major" Wilson. Marsden is an important witness, and has been subposneed to appear and testify. The point is an interesting one, and time will tell whether the Court or the Assembly has the best of it. Nothing of the kind has ever before been brought up in this State.
